

DASTGIR SHABBIR IDRISI

Full Stack Developer | Backend Developer | Nodejs Developer

+91 8652337065 | dastgiridrisi27@gmail.com | linkedin.com/in/dastgir-idrisi-2630b7355 | github.com/Dastgir-27 | dastgir.vercel.app/

PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN stack with hands-on experience building scalable web applications, REST APIs, and backend systems. Skilled in React.js, Node.js, Express.js, MySQL, and third-party API integrations. Proven ability to deliver end-to-end solutions from responsive frontends to secure, production-ready backends. B.E. in Computer Science, with a strong focus on clean architecture and real-world problem solving.

WORK EXPERIENCE

Backend Developer Intern

Ace 360 Degree

September 2025 – April 2026

- Built and maintained scalable Node.js, Express, and backend services for 3K+ users, including RESTful APIs for auth, dashboards, and CRUD operations.
- Integrated third-party services (eSign workflows, WhatsApp, email, maps) and led delivery of a critical eSign feature that improved document processing workflows.
- Optimized database queries and backend logic, reducing API response time by ~30%; implemented Redis caching to cut server load.
- Worked with MySQL and MongoDB for data storage, retrieval, and schema design; deployed apps via Docker and cPanel.
- Collaborated in Agile sprints with GitHub version control; contributed to frontend integration using React.js and Next.js.
- Applied on-page, off-page, and technical SEO principles to improve web application visibility.

PROJECTS

Vignan Electronics – Industrial Automation Platform | vignanelectronics.com/

Developed a full-stack industrial website with a Next.js frontend and Node REST API backend, featuring dynamic product pages, categorized resource downloads, events/careers modules, video tutorials, and WordPress blog integration with responsive UI across devices.

Technologies: Next.js, React.js, Tailwind CSS, Nodejs, MySQL, REST APIs, WordPress API.

Ledger Samvridhhi CRM & Landing Page | ledger.samvridhhi.com/login | samvridhhi.com/

Led full-stack development and deployment of a secure ledger management platform for bank CSP/BC operations, including multi-role auth (admin/subadmin/CSP). Implemented Excel ingestion pipeline for bank-specific sheets (PNB, SBI Odisha/Bihar, UCO, BGVB, etc.), robust row-level validation. Built document workflows for agreements, identity/certificate downloads, and Protean eSign API integration (signed contracts + token/recipient management), plus PDF generation/merging via mpdf. Designed user profile lifecycle (address/docs/bank info), CSP ledger report generation and PDF export, along with MIS data upload/download and admin audit trails.

Technologies: Node.js, Express.js, MySQL, Protean eSign Apis, Tailwind, JS, OpenSpout, PhpSpreadsheet, mpdf.

Metal Fakihs International – Scrap Metal Trading & Recycling Platform | metal.fakihs.com/

Built a high-performance, responsive web application for a UAE-based scrap metal trading company, featuring dynamic product showcases, global sourcing presentation, and lead generation via WhatsApp and direct contact integrations.

Technologies: React.js, Vite, Tailwind CSS, Shadcn UI, React Router DOM, Radix UI, React Hook Form.

TECHNICAL SKILLS

Frontend: React.js, React Hooks, Redux, Material UI, EJS, Bootstrap, Tailwind CSS, CSS3, HTML5

Backend: Node.js, Express.js, Nestjs, Laravel, REST APIs, MVC Architecture, JWT, Oauth, API Integration, CRUD Operations

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Cpanel, Cloudinary, MongoDB Atlas, Postman, Curl, CI/CD, Hoppscotch, Vercel, Render

Languages: JavaScript, Java + OOPs

AWS Cloud: S3, EC2, Elastic Beanstalk, RDS

Soft Skills: Problem Solving, Team Collaboration, Quick Learner

EDUCATION

Bachelor of Engineering (B.E.), Computer Science

Rizvi College of Engineering — Completed in 2026

CERTIFICATIONS

Full Stack Web Development — Apna College (2024)

AWS Cloud Certificate — Amazon Web Services (2024)
